Wrangler AT/SA 4-rib

Wrangler AT/SA 5-rib

The sign of strength

The "Shield" icon on the sidewall of each Wrangler featuring SilentArmor Technology tyre is there to remind you of the breakthrough technology specifically added to these tyres.

SilentArmor Technology™

Features two layers made with DuPont™ Kevlar® to help absorb road noise for a quiet and comfortable ride. Also improves tyre resistance to punctures in the tread.

Durawall™ sidewall compound

For enhanced puncture resistance in the sidewalls.

Goodyear Wrangler AT/SA

The new 4x4 tyre for on and off the road

- SilentArmor technology for improved tyre resistance to punctures and for a comfortable ride
- Better off-road performance
- Shorter braking distance in wet

GOODYEAR

Safety together

Wrangler AT/SA

The new on/off-road tyre featuring SilentArmor Technology

The new Wrangler AT/SA from Goodyear featuring SilentArmor Technology, allows you to drive with confidence on rough roads, thanks to the durability of two layers made with DuPont™ Kevlar®, a material stronger than steel, and Durawall™ sidewall reinforcement that enhances cut resistance in the sidewalls.

Enjoy the smooth, quiet ride that comes from the layers made with DuPont™ Kevlar® which help to absorb road noise.

With Wrangler AT/SA, you just go wherever you want, under any road conditions.

SILENTARMOR
TECHNOLOGY

- ① Two high-tensile steel belts and two layers made with KEVLAR®, a material that's 5 times stronger than steel.
- ② The same layer made with KEVLAR® also acts as a sound barrier to help absorb road noise for a smooth, quiet and comfortable ride.
- ③ Goodyear added a Durawall™ sidewall reinforcement that improves the tyre's resistance to punctures and cuts in the sidewall.
- ④ A Rim Guard in the sidewall helps protect your wheels from accidental curb damage.

DuPont™ and Kevlar® are trademarks of E.I. du Pont de Nemours and Company.

Features and benefits

Feature

SilentArmor Technology

Deep staggered shoulder notches and traction ridges

High blade density tread

Optimised polymer blend

Action

Two high-tensile steel belts and two layers made with DuPont™ Kevlar®, which is a material five times stronger than steel

DuraWall™ sidewall reinforcement

Reduced noise with optimized block sequence and shifting

Increased mud evacuation

Additional biting edges in radial and longitudinal direction

High cut resistance in tread and good interaction on wet surface

Low polycyclic aromatic oil content

Benefit

Improves tyre resistance to punctures in the tread

Reduces noise for a smooth and quiet ride

Improves tyre resistance to punctures and cuts in the sidewall

Quiet and comfortable ride

Improves off road traction in mud

Better grip on wet

Optimized wet grip and mileage with good off road performance

Friendly to the environment
