

**GOODYEAR**

BECAUSE NOT ALL TIRES  
ARE THE SAME ...

► TYRE: **DuraGrip**

THE TOUGH TYRE  
THAT GOES  
THE DISTANCE

**INNOVATION:**

- Great value for money
- Extended treadwear
- Asymmetric tread design for safety

## ► TYRE: DURAGRIP

Goodyear developed the new DuraGrip tyre to specifically meet the needs of modern day small cars. Incorporating our innovative technology, as used in the test-winning HydraGrip, UltraGrip 7 and Excellence tyres, this tyre has been developed to cope with the pressures that constantly stopping and starting in traffic causes to both your vehicle and your tyres.

This is a growing segment of the market where there is an increased demand for both value for money in the cars people buy and the tyres that they put on them. DuraGrip delivers on both counts by delivering high mileage and safety. Without sacrificing any of the brand qualities you would usually associate with Goodyear.

## ► FEATURES AND BENEFITS

FEATURE	ACTION	BENEFIT
 1 Asymmetric tread pattern	<ul style="list-style-type: none"> <li>▪ Closed outside design stiffens the shoulder area</li> </ul>	<ul style="list-style-type: none"> <li>▪ For increased dry handling performance and improved noise reduction</li> </ul>
2	<ul style="list-style-type: none"> <li>▪ Open inside design evacuates water</li> </ul>	<ul style="list-style-type: none"> <li>▪ Aquaplaning resistance and enhanced wet performance</li> </ul>
3 Glued elongated blocks	<ul style="list-style-type: none"> <li>▪ Blocks working as a rib</li> </ul>	<ul style="list-style-type: none"> <li>▪ Designed to improve noise reduction and enhance appearance</li> </ul>
4 Progressive bubble blades (3D-BIS technology)	<ul style="list-style-type: none"> <li>▪ Decoupling blocks with stiffness increase</li> </ul>	<ul style="list-style-type: none"> <li>▪ Delivering better wet performance and increased stability</li> </ul>
5 Two continuous outside ribs	<ul style="list-style-type: none"> <li>▪ Stiffer outside design</li> </ul>	<ul style="list-style-type: none"> <li>▪ For ISO noise and enhanced dry handling</li> </ul>
6 Inside block design	<ul style="list-style-type: none"> <li>▪ Radial and circumferential grooves connection</li> </ul>	<ul style="list-style-type: none"> <li>▪ To allow for better water dispersal</li> </ul>
New specific construction	<ul style="list-style-type: none"> <li>▪ Equalises pressure distribution in the tyre footprint</li> </ul>	<ul style="list-style-type: none"> <li>▪ Provides uniform wear and extra mileage</li> </ul>
